

# Congresswoman Hilda L. Solis

31st Congressional District, California

March 2002

Dear Friend:

It is an honor to inform you that I was able to secure \$100,000 in federal funding for the Baldwin Park Maine Avenue redesign project which will make the Baldwin Park downtown area more accessible to businesses and the community, especially pedestrians and bicycles.

Due to the high volume of traffic, business owners, residents and commuters have expressed concern that Maine Avenue is dangerous for automobiles and pedestrians. The funds will be used to reconstruct the street between Ramona Boulevard and Clark Avenue, in order to make the community safer for traffic and pedestrians.

Improving the city of Baldwin Park is my priority and I will continue to actively work with the City of Baldwin Park to explore alternative methods to relieve traffic congestion throughout our area. I want to help make sure that families, students and seniors can walk safely along busy roads and intersections such as Maine Avenue in Baldwin Park. The current state of this road puts them, and drivers, at risk. The funds will make Maine Avenue more family-friendly and our neighborhood safer.

Should you have any questions or comments, please do not hesitate to contact my office.

Sincerely,

Hilda L. Solis  
Member of Congress
